

STUDENTS AND POSTDOCTORAL FELLOWS' MEMBER STATUS

Makeup

This category is composed of undergraduate, postgraduate or postdoctoral students who are enrolled in a Quebec university and whose study project is in keeping with the Network's field, objectives and programming. They must be directed, co-directed or supervised by a co-investigator.

Appointment

The coordinator receives membership applications twice a year. To maintain their status, these members must officially confirm their registration at a Quebec university, if requested.

Undergraduate student membership is exceptional and is evaluated by members of the Executive Committee.

Mandate

Students and Postdoctoral Fellows' members may sit on the executive committee and on the institution or programming committees. They are eligible for the various calls for projects and the contests to support programming. They can be hired to help run the Network's activities.

BENEFITS OF BEING A MEMBER

- Be eligible for various calls for projects and funding related to our [programming](#), including international mobility activities (Hexa_Out), inter-university research-creation residencies (DEMO), and a biennial international symposium (Rencontres Interdisciplinaires).
- Participate in dissemination activities organized with our cultural and professional partners, such as MUTEK, ELEKTRA, etc.
- Apply for developmental job opportunities connected to the Network's activities.
- Participate in one of our committees.
- Disseminate news of your research activities through the Network's communication tools (over 2,000 followers).

ELIGIBILITY CRITERIA

- Be a graduate, post-graduate or postdoctoral student.
- Be enrolled in a Quebec university affiliated with the Network.
- Have a study project in line with the research-creation [objectives and programming](#) of the Network.
- Be directed, co-directed or supervised by a [co-investigator member](#).
- Exceptionally, applications from undergraduate students will be evaluated by the Executive Committee.

Membership status is valid until the end of the program, but must be re-evaluated in the following cases:

- Change of research advisor.
- Change in the subject of research.
- Change of institutional affiliation.
