# VALENTINE VERHAEGHE

## PUBLIC LECTURE

**Public lecture**

**Wednesday November 9, 2016  
6:00pm**

Université du Québec à Montréal  
Chaufferie du Pavillon Coeur des  
Sciences (CO-R700)  
175, avenue du Président-Kennedy  
Montréal, QC, H2X 3P2 Canada

Hexagram is proud, for the 16th event of its Distinguished Speaker Series, to present Valentine Verhaeghe, and interdisciplinary artist working in various fields of human sciences, philosophy and aesthetics. Member of the "Le corps de l'artiste" research group, professor at Institut supérieur des beaux arts in Besançon/Franche-Comté and co-director of the "MOBILE ALBUM INTERNATIONAL" magazine (presses du Réel), she is in charge, since 2015, of unboxing Robert Filliou's (1926-1987) archives. After digitizing most of the French artist and Fluxus member's archive, Verhaeghe will present the results of her research. Intellectual data in the archive spans from 1957 to 1987. It consists of unreleased work and research notes that will be linked to the artist's public work. It is basically an exploration of a major 20th century artist's research-creation path.

Free admission

In French

**WITH:**

André Éric Létourneau (UQAM) and Barbara Clausen (UQAM)
